Driving Pakistan Towards an Electric Future

Welcome to the Future of Mobility

The automotive world is experiencing a remarkable transformation, and electric mobility is at the centre of this revolution. Emobility & Storage Expo Pakistan 2026 brings together the latest innovations, technologies, and solutions shaping the future of transportation and clean energy.

The exhibition will serve as a powerful platform connecting EV manufacturers, battery technology providers, charging infrastructure companies, energy solution providers, policymakers, investors, and industry professionals under one roof.

With Pakistan moving towards cleaner, smarter, and more efficient transportation solutions, Emobility & Storage Expo aims to accelerate the adoption of electric vehicles by creating opportunities for collaboration, investment, knowledge sharing, and business growth.

Why Emobility & Storage Expo?

A Platform for Innovation and Growth

The exhibition provides an opportunity for companies to showcase their latest products, technologies, and solutions to a focused audience from the growing electric mobility ecosystem.
